CAREER SUMMARY:

I am committed to driving a dynamic Environmental Health & Safety EHS system; being a focal point that is always willing to put to use my skill set, training and experience to benefit and drive progress within organizations that enlist my professional service. I trained as a **Chemical/Petrochemical Engineer** and currently work as Senior HSEQ Engineer with DOBAPALS Group Limited. With my varied Service and Project background, I have the requisite experience to deliver EHS programmes, Management Systems, complex assignments, assets and projects within record time while not neglecting high EHSQ standards and industry best practice in a collaborative, insightful yet professional manner.

RELEVANT EXPERIENCE:

July 2015 till date

FIRM: DOBAPALS GROUP LIMITED

ROLE: Senior HSEQ Engineer

Job Specialities

– Safety Studies – Safety & Risk Management – Compliance – Drive EHS Positive Culture

Job Responsibilities

- Support Commercial team from bid package preparations, submittal phases and ensure insertions capture seamless transfer of EHS responsibilities/requirement at project execution phase.
- Demonstrate accountability for DOBAPALS's functional, business, and broad objectives. While working to integrate and develop processes that meet business needs across the group, manage complex issues within functional area(s) of expertise, be involved in long-term planning, and contribute to the overall business strategy.
- Lead Environmental Health & Safety programs and initiates; as well as influence integration of EHS policies and practices into the business.
- Manage activities with a view to drive compliance with EHS regulation, company policies and industry/global best practice.
- Maintain expert knowledge on existing and new/proposed regulations.
- Provide input to and manage EHS department budgets.
- Manage compliance tracking programs and record keeping systems.
- Ensure effective training/education programs are in place and cascade lesson learnt from incident/clients' requirement to colleagues.
- Lead business by complying with all applicable EHS rules, regulations and applicable policies.
- Provide support, technical guidance and training at the site level.

Bassey Solomon Ekpoh Environment Health & Safety Manager – B.Eng/NEBOSH/IOSH/OSHA

- Interface professionally with company's stakeholders; staff, clients, government/regulators and the public in all EHS concerns.
- Analyze data to assess environment, health and safety challenges, and to develop approaches to control same.
- Initiate and influence integration of related policies and practices into the business.
- Advocate for hazard hunt activities, risk reduction program, and EHS Framework improvement.

Job Achievements:

- Redesigned safety report templates that significantly increased company-wide staff HSE reporting of unsafe acts/condition by 64.7% and incidents by 56%.
- Delivered a 78.4% budget performance by Q3 despite general introduction of cost saving measures due to implementation of an overall lean budget by the company for 2016.
- Established and maintained an Integrated Management System leading to award of ISO 9001:2015 QMS 'certification' by RICl Canada.

October, 2012 - June 2015

FIRM: ASSOCIATED MARITIME SERVICES LIMITED

ROLE: QHSE Advisor

Job Specialities

– Health & Safety Training – Management System Audit – Safety/Emergency Response

Job Responsibilities

- Implemented Site HS&E standards, procedures and routine HS&E programs including HS&E training program, inspection/audit.
- Tracked through periodic engagement and assessment of the integrity of petroleum products storage and bulk delivery systems for third clients (Oando, AP, MI, BLS, Sahara Energy, Conoil) for bunkering operation: from tanker to dump/storage, vessel to storage and their reverse operations.
- Managed Site HS&E organization and assigned Site HSE Supervisors and Officers, including Equipment/Scaffold Inspectors.
- Assisted Base Management in emergency planning, facilities, personnel as warranted by the emergency risk and clients' HSE procedures.
- Supported line manager in preparation for annual HSE MS management audit/review criteria and submission for Top Management Adoption/Approval.

Job Achievements

- Reduced fatality from previous three (3) year's record of 2 to Zero.
- Reduced recorded accident by 49%.

April 2008 - September 2012

FIRM: OIL QUEST INTERNATIONAL LIMITED

ROLE: Well Works HSE Coordinator

Job Specialities

– HSE Supervision – Internal Auditor – Risk Assessment – Hazard Hunts – Safe Lifting

Job Responsibilities

- Managed the day-to-day implementation of the SHE Compliance programs for all well sites.
- Planned, directed and supervised day-to-day activities of safety team in line with OQIL procedures and local regulations
- Supported planning for safe use of lifting equipment, scaffolds and wellwork equipment.
- Conducted risk analysis, investigated incidents, recommended corrective and preventive actions that promoted safety policies and procedures of the company.

Job Achievements

- Increased workforce reporting of nearmiss incidents and unsafe observation by 73%.
- Instituted controls that significantly reduced rig down time by 28%

Projects/Location:

- SPDC Nembe Curtting Channel Shallow Swamp Area Wells Workover/Slickline/Fishing Campaign Q2 – Q3 2012.
- TOTAL E & P Interventions Programmes for Low Performing Wells in Obagi/OML 58 Area.

April 2005 - October 2005

FIRM: NIGERIA LNG LIMITED [NPP (Trains 4 + 5) and Six Project]

ROLE: PROJECT SERVICES ENGINEERING INTERN

Job specialities

– EPCM – Client/Contractor Interface – Inspection – Project Management – Commission

Job Responsibilities

- Conducted site inspection on process plant components; cryogenic heat exchangers, safety alarm system, sludge unit, fire/water hydrant system.
- Conducted safety awareness activities within the immediate area of responsibility.
- Ensured that projects deliverables met the NLNG design criteria/requirements during pre-concept, Concept, FEED, and Engineering, procurement, commissioning and operational phases.
- Assisted in routine and schedule maintenance, inspection and provided operational logistic support to discipline engineers.

Job Achievements

- Safe and flawless delivery of NLNG Trains 5 & 6 without LTI.
