## PERSONAL DATA:

- Sex: Male
- Date of Birth: 13th December, 1985
- State / Nationality: Delta / Nigerian
- Marital status: Married

## EDUCATIONAL QUALIFICATIONS:

- **2014 - 2016**  
B.Eng. (First Class Honours) Mechanical and Manufacturing Engineering  
University of Portsmouth  
Winston Churchill Avenue,  
Portsmouth,  
PO1 2UP,  
United Kingdom.
- **2006 - 2009**  
HND (Upper Credit) Mechanical Engineering (Power plant option)  
Petroleum Training Institute  
Effurun, Delta State.
- **2003 - 2005**  
ND (Upper Credit) Mechanical Engineering  
Petroleum Training Institute  
Effurun, Delta State.
- **1996 - 2002**  
Senior Secondary School Certificate  
Ugborikoko Secondary School  
Effurun, Delta State.

## WORK EXPERIENCE/DESCRIPTION:

**EMPLOYER: SCHLUMBERGER NIGERIA LIMITED**

**PERIOD: JUNE, 2016 – TILL DATE**

**POSITION: FACILITY MAINTENANCE SUPERVISOR – OILFIELD SERVICES**

- Coordinate maintenance activities within the various functions and segments to obtain optimum production and utilization of personnel and equipment specific to the SBS team.
- Monitor iBase and provide reports on requested tasks frequency, completion state, time of completion, responsiveness time and performance feedback from the users.
- Conduct weekly inspection / audit and reported into Quest to ensure the SBS implementation and improvement.
- Manage the day to day basic maintenance and repairs related to facilities.
- Ensure that scheduled maintenance, testing and inspection are being conducted in the facility to guarantee safely and efficiently operation and also maximize of the facility and reduce the risk of failure.

- Manage the yard and workshop space by keeping yard and workshop in order with work flow free from obstacles
- Facility should respond to operational changes requiring redistribution of allocated areas, managing new space demand and consolidated storage of hazardous materials.
- Managing the general housekeeping from the workshop /Labs across segments

**EMPLOYER: SCHLUMBERGER NIGERIA LIMITED**

**PERIOD: JULY, 2012 - JUNE, 2016**

**POSITION: SENIOR MAINTENANCE TECHNICIAN / FIELD SPECIALIST – RESERVOIR EVALUATION**

**WIRELINE**

**DUTIES:**

- Perform Quality Checks /Preventive Maintenance and Corrective Maintenance(repair) on time with high quality level on sampling tools-Modular Reservoir Formation Testers(MDT)- Hydraulic power Module ,Single probe module, Sample Chamber module, Multi sampler module, Optical Fluid Analyzer Module (OFA),Dual Packer Module, Pump-Out module, Quick silver Probe Module, Sample bottles ,Pressure Gauges, Probe assembly, Strain gauge , CQG etc.
- Maintenance of wireline Mechanical sidewall coring tool (MSCT) - Coring motor, MCFU, MCMU.
- Perform operational checks of tool using MCM (Module configuration Maxis) both at the base and wellsite (offshore and onshore).
- Tool string connection Rig up and Rig down.
- Ensure that the status of all equipment assigned to my cell is reported and kept up to date in the RITE system.
- Ensure that supplies and support equipment such as SFTs(special field tools), ready boxes and Lab container are available at the wellsite to perform the operation.
- Makes recommendations to supervisors on requirements for spare parts,test equipment and tools necessary for efficient maintenance.
- Perform certifications, calibrations on modules and accessories such as strain gauges and sample bottles/cylinders.
- Equipment/Tools surveillance, trouble shooting, root cause analysis
- Electrical Checks (Insulation and continuity checks) on Equipment/Tools
- Tool review and inspection monthly (TRIM)/ Fast inspection of tool(FIT)
- Prepare tools at well site for logging operation (Pretest, Sampling and Side Coring).
- Prepare MDT and MSCT tools before RIH and secure the samples at well site (surface).
- Perform pre-job and post job maintenance of MDT and MSCT tools
- Manage daily and long range planning / scheduling
- Complete and maintain quarterly production charts and report
- Maintain schedules with summary reports immediately available

**EMPLOYER: SAIPEM NIGERIA LIMITED (SNL), PORT HARCOURT.**

**PERIOD: APRIL, 2011- JULY, 2012**

**POSITION: FIELD ENGINEER**

**PROJECTS: TOTAL/ELF – USAN DEEPWATER DEVELOPMENT PROJECT AND OFON PROJECT**

**DUTIES:**

- Advice project supervisors of any potentially hazardous situations in order to ensure the earliest possible return to completely safe working conditions.
- Involved in the construction/fabrication of jacket leg,gravity base anchor piles, calm buoy, turntable, buoyancy tanks and gas injector flets.
- Refurbishment of barges and tug boats.
- Ensure that all installations and work sites are kept clean and tidy at all times particular to the permit to work procedures.
- Make technical decisions by applications of specialized knowledge / skills.
- Communicate status and problems to project leaders and management.
- Document results, participate in program reviews, and prepare invention disclosures where appropriate.
- Support the supervision of scaffolds erected modified and dismantled on the field.
- Take daily records of scaffolds erected and dismantled on the field.

- Design techniques and laying of job cards.
- Drawing of component parts and Interpretation of engineering drawing.
- To inspect and endorse the quality of work.

**EMPLOYER: National Youth Service Corps (NYSC).** Works and Housing Department, Malam Madori Secretariat, Malam Madori Local Government Area, Jigawa State.

**PERIOD: 2010 -2011**

**POSITION: TECHNICAL OFFICER**

**DUTIES:**

- Receive request cards from other department.
- Carrying out maintenance job within the local government area such as house numbering, generators
- Coordinate all corporers within the local government as the corper liaison officer (CLO).

**EMPLOYER: DELTA STEEL COMPANY**

**PERIOD: 2005 - 2007**

**POSITION: PROCESS CONTROLLER/PLANNER**

**DUTIES:**

- Planning Operation and Control  
-Process planning, Design techniques, Drawing of component parts, Interpretation of engineering drawing, Laying of job cards, Understanding of materials/application and Customer relation.
- Metrology/Inspection  
-Mark-out and inspection of jobs, Warehouse operation, Proper storage, handling of materials and Retrieval of materials.
- Millwright/General Fitting  
-Assembly of packaging machinery, Perform and conduct maintenance, Perform defect clearance on machine,  
-To assemble, fit, modify and check parts for timely failure and Installing new plant equipment on site

**RIGS AND DRILLSHIP I HAVE WORKED SINCE 2011:**

- Pacific Khamsin Deepwater Drillship
- Pacific Bora Deepwater Drillship
- Pacific Scirocco Deepwater Drillship
- Sedco Express Semi-submersible Rig
- Transocean Jack-up Rigs
- ACME Land Rigs etc.

**PROFESSIONAL COURSES ATTENDED:**

- Mechanical Sidewall Coring Tool (MSCT) maintenance, Schlumberger, Tarkoradi, Ghana.
- Basic MDT (Modular Formation Dynamic Testers) maintenance for Global Service, Schlumberger Middle East and Asia Learning Centre, Abu Dhabi.
- OFS (Oilfield Service) training held in Accra Ghana.
- Basic Offshore Safety Induction And Emergency Training (BOSIET), Falck Prime Atlantic, Nigeria. (OPITO)
- Quality Health Safety and Environment (QHSE). Held in Schlumberger, Port -Harcourt
- Service Quality Training, Schlumberger Nigeria Limited.
- Wireline Quality management System, Schlumberger Nigeria Limited.
- Pressure Level 1 and 2, Schlumberger Nigeria Limited.
- Commentary Task Assessment (SIPP). Held in Schlumberger, Port - Harcourt
- Leadership in Health and Safety (LIHS), Saipem Contracting Nigeria Limited.
- Permit To Work, Saipem Contracting Nigeria Limited.
- Confined Space Training, Saipem Contracting Nigeria Limited.
- Emergency Response Awareness, Saipem Contracting Nigeria Limited.
- HSE Competence Development Training, Nigeria Institute of safety Professionals (SPDC Accredited), Delta State.

- GHSE (General Health, Safety and Environment), Nigeria Institute of safety Professionals (SPDC Accredited), Delta State.
- AutoCAD (Automatic Computer Aided Design) Training, Mechanical Engineering Department, Petroleum Training Institute, Effurun.
- Pumps and Valves Training Programme, Mechanical Engineering Department, Petroleum Training Institute, Effurun.

**AWARD RECEIVED:**

- Best Student, MDT (Modular Formation Dynamic Testers) maintenance for Global Service 2013, Schlumberger Middle East and Asia Learning Centre, Abu Dhabi.
- Best Graduating Student, (HND, Power/Plant Option, 2008/2009 Session), Petroleum Training Institute.
- Agbami Medical and Engineering Professionals Scholarship 2009, Chevron/Star Deepwater Petroleum Limited.

**PERSONAL CHARACTERISTICS:**

- Oral and written communication skill
- Good judgment and a concern for safety
- Ability to work with others as team
- Mechanical aptitude
- Analytical skills
- Mathematical ability
- Self motivated and result oriented
- Ability to motivate people and delegate responsibility.

**INTERESTS:** Reading, Swimming, Engineering design (AutoCAD and CroE) and Travelling.

**REFEREES:**

- Mr Emmanuel Oghuvwu  
Schlumberger Nigeria Limited, Port Harcourt,  
08097113659, 07034174852.
- Mr Anthony. I. Usenu  
Office of the Head of Service, Government House,  
Asaba. 08056238062, 08066527374.
- Engr S. I. Ukwuaba,  
Mechanical Engineering Department,  
Petroleum Training Institute, Effurun.  
08034653832
