RIG QARNIN

Pacific Drilling - Bora

- Jackryan Drillship Transocean 5th Generation Rig
- Sedco Energy Transocean Semi-Sub 5th Generation Rig
- Deepwater Pathfinder Drillship Transocean 5th Generation rig
- Sedco 709 Transocean Semi-Sub
- M G HULME Transocean Semi-sub 4th Generation rig
- HIGHLAND 7 Jack-up Transocean

- Searex 6 Transocean
- Trident 4/S700 (Transocean Sedco Forex Ltd)
GeoplexDrill Nig Ltd

PROFESSIONAL CERTIFICATION:

IWCF SURFACE BOP STACK LEVEL 3 [Driller certificate]

Cert. No. DL3S00044207-01-LP1C

APRIL 2015-APRIL 2017

WELL-CAP COMBINE SUBSEA/Surface BOP Stack(Driller Certificate)

Cert No:A372720

OCTOBER 2013- OCTOBER 2015

NATIONAL DRILLING COMPANY ABU DHABI

POSITION; ASSISTANT DRILLER 2015 TO 2016 TO DATE

RESPONSIBILITIES: PREPARE/WRITE IADC REPORT & OTHER DRILLING/OPERATIONAL REPORTS.

- Good practical understanding of operational procedure in well control.
- Acquainted with kick causes, kick indicators and shut in procedures.
- Tripping in and out of hole
- Make and Run in Hole BHA, drill pipe and casing
- Oversee BHA & other critical jobs on the rig floor
- Pressure testing BOP and BOP associated valves.
- Slip and cut drill line, plus adjust and test crown-o-matic
- Prepare kill sheet and actively participate in kill operations.
- Monitor hole fill/displacement during trips via trip tank gauges & trip record sheet
- Supervise/support in preparing and mixing of mud chemical additives, plus periodic monitoring of mud properties.
- Periodically Relief the driller on the brake while tripping in and out of hole
- Prepare BHA, drill pipe and casing tallies.
- Supervise/support floor hands while making up BHA & other critical jobs.
- Derrick/mast visual inspection & general rig inspection via checklist.
- Supervise the maintenance/repair of high pressure mud pumps & associated equipments.

GEOPLEX DRILL

POSITION

ASSISTANT DRILLER NOV. 2010- 2014

RESPONSIBILITIES.

- Good practical understanding of operational procedure in well control.
- Acquainted with kick causes, kick indicators and shut in procedures.
- Tripping in and out of hole
- Make and Run in Hole BHA, drill pipe and casing
- Oversee BHA & other critical jobs on the rig floor

Transocean Support Services (MG HULME,

Position PUMPMAN/DERRICKMAN April 2006-NOV.2007

Responsibilities:

Transfer of oil- based mud from boat to the rig

Monitor mud properties such as weights, viscosity and perform calculations recognize warning signs of kicks.

Monitoring and maintenance/servicing of the mud pumps to replace bad valve, valve seat, piston, liner, modules etc.

Position: Mud man (RIG: T57,T26)jun2005

Responsibilities:

It involves: Preparation of drilling fluids

Monitor mud properties such as weights, viscosity and perform calculations, recognize warning signs of kicks. Carry out test on mud and formation cuttings to determine sand, water contents, PH etc. Transferring mud from one tank to another through the connecting pipe line

Replacement of faulty valves, Work over and completion fluids preparation.

OTHERS INCLUDE:

Operating the tongs and slips to connect and Disconnects drilling pipes / collars and drilling bits.
Rig up and down procedures for the rig and BOP
Monitoring and maintenance/servicing of the mud pumps to replace bad valve, piston, liner etc.

TRANSOCEAN

2002 Jan –Nov.2004

Roughneck

Responsibilities include:

- Involve in rig-up and rig-down of BOP, rig mast
- Use rig tong, spinner, air winch, slips etc for make-up and break out of string connections
- Familiars with the use of chicksan connections and high pressure hoses for high pressure test and cementing jobs.

TRANSOCEAN

March 1999- Sept 2002

Roustabout

Responsibilities include:

- Slinging of equipment and tools
- Scraping and painting of equipment
- Servicing of handling tools
- General cleaning of rig site
t.

HOBBIES/INTEREST:-

- Swimming, Travelling and playing of table tennis.
- Experienced in land and deep water drilling operation
- Knowledge and experience in lost circulation control, HPHT well, H2S well.
- Ability to organize and make effective use of time to achieve set targets.
- Ability to work in a multi- task, high paced environment.
- Maintaining / using my strong interpersonal skill to develop and maintain solid working relationships with rig personnel's.
-
- Good attitude to work
- A team player

COURSES ATTENDED

- International Association of Drilling Contractors (WELL CAP)
- INTRODUCTION TO WELL CONTROL
- Tropical Basic Offshore Safety Induction Engineering Training (BOSIET).
- IADC Rig Pass
- EDN Safety Leadership
- Fork Lift Operator
- Assistant driller (OJT)
